Attn: Scott Eccleston

Re: PALM BEACH GARDENS HIGH MODERNIZATION

Project No: 1371-7506

Letter of Recommendation

Dear Mr. Scott Eccleston:

Pirtle Construction Company has worked successfully with Stryker on a variety of projects and found them to be a professional and reliable firm. Most recently, Stryker was the subcontractor for the electrical and systems work on a 400,000 square foot, 3 story high school project. In addition to being a very large project, the project had numerous design inconsistencies and contradictions. Stryker showed flexibility in schedule, quality in workmanship, and cooperation with other subcontractors.

I would like to especially commend Stryker in taking a proactive position on the design issues on the project. Stryker took the initiative to identify design errors and omissions and make recommendations for corrections. Stryker continuously worked cooperatively with the design and construction management firms to ensure these corrections got made without any impact to the construction schedule.

I would and have recommended Stryker to be the preferred electrical contractor on any and all future projects.

Very truly yours,

JAMES B. PIRTLE CONSTRUCTION CO., INC.

Dennis Beran

Project Manager
