Re: Stryker Electrical Contracting, Inc. – Reference Letter

Dear Ms. Moore,

It is my pleasure to provide a reference letter for Stryker Electrical Contracting, Inc. (Stryker). I have maintained a professional and working relationship with Stryker since 1992. Throughout that period, Stryker has performed electrical services on major building and civil construction projects.

I have always found their administrative, management and field staff to be responsible, hard working and honest. Stryker's principals are all hands-on individuals with the corporate culture to provide the client with quality and time performance. Stryker will be another important contractor asset to the Florida Department of transportation.

If you have any further questions, to not hesitate to contact me.

Sincerely,

Alberto G. Ribas, P.E.
President
