SUFFOLK

To whom it may concern:

This letter will serve as a reference for Stryker Electrical Contracting, Inc. who was an irreplaceable member of Suffolk's Trade team at the Sinai Residence project. The project was a 616,000 sq. ft. Continuing Care Retirement Center consisting of 240 Independent Living units, 48 Assisted Living Units, and 60 Skilled Nursing Units, two commercial kitchens, six dining rooms, three bars, a rooftop putting green, three landscaped courtyards, three second floor green roof gardens, two nail salons, treatment and exam rooms, physical and occupational therapy rooms, two card rooms, one multi-purpose meeting room, four craft/activity rooms, two reading-library rooms, seven fireplaces, a free-standing Fitness center with an outdoor covered pool, yoga room, fitness/aerobics room, massage rooms and beauty salon and a 220- car Parking Garage, located in Boca Raton, Florida with an Electrical Contract Value of over $12 Million.

With Stryker's assistance Suffolk and the team were able to deliver to the owner an exceptional property while overcoming numerous design obstacles. Stryker's ability to be a flexible team member and help drive the flow of construction allowed Suffolk and its team to complete this premier project with a minimal amount of impact to the project schedule.

Stryker's project site team worked hard to maintain a clean and safe working environment while working seamlessly with the other trades on the project to keep the progress of the project moving.

When the opportunity presents itself, Suffolk would not hesitate to use Stryker's services again and would highly recommend Stryker to any Contractor or Construction Manager looking for a quality Electrical Contractor who is committed to the team and the project.

Please feel free to contact me for additional information.

Sincerely,

Norma Pendo Knott
